State Fire Administrator

Revised May 1998

Fire never takes a holiday

**This
Christmas,
follow these
simple tips...**

**and keep fire
from ruining
this most
joyous time of
year.**

- Make sure a smoke detector is installed nearby.

- Use wire or nylon cord to secure tree to the wall or ceiling to keep it from being tipped over by children or pets.

Follow these tips for a happy, fire-safe holiday!

- Choose a freshly cut tree.
- Cut a few inches off the trunk before placing in the stand.
- Keep tree from blocking halls, stairs and exits.
- Keep away from heat sources, sparks or open flames.

- Check and replace worn or damaged light sets or wires.
- Use only non-combustible decorations.
- Use only U.L. or F.M. approved lights; only spot or floodlights on artificial trees; and **NO CANDLES!**

- Avoid “octopus” connections and overloaded circuits.

- Disconnect lights at bedtime or when unattended.

- Remove discarded packages and wrappings from the house immediately. Never burn wrappings in a fireplace or woodstove—it could cause a chimney fire.

- Trees need water; check and refill often.

- If the tree dries out, take it down and remove it.
